

by repealing rules that regulate corporate
owned media sources, you open a pandora's box.
should you eliminate these rules, then, WE
THE PEOPLE, will get only slanted, filtered,
and biased news reports, not much unlike
what is going on now, but it would get even
worse. please don't subject the american people to further erosion of
their right to have clear, concise, honest,
and choice in their news.

sincerely,
jennifer reed
